

CUSTOM SYNTHESIS

VALUE ADDED SOLUTIONS FROM TORONTO RESEARCH CHEMICALS

WHAT WE OFFER

- Value added Customized Synthesis
- Development of new synthetic routes
- Customized Cocktail of Chemicals
- Milligram to Kilogram batch synthesis capacity
- Fully developed Purification and Analytical Capabilities
- Synthesis of Stable Isotope Labelled Analogs, Building-blocks, Intermediates, Nucleic acid derivatives, Forensics, analogs, Metabolites and Impurities
- Synthesis of Standardized Reference Compounds
- Building blocks for Combinatorial Chemistry

3 STEP SOLUTION

CONSULTATION

- Synthetic Routes
- Time Frame
- Quote
- Confidentiality / NDA
- Regular Updates

SYNTHESIS

- Discussing Progression
- Troubleshooting
- Timeframe Progression
- Laboratory Support
- Product Development

QA & DELIVERY

- State of Art QA Services
- Purity by HPLC
- MSDS, CFA, Spectral Data
- Custom Packaging

ABOUT TRC

With more than 35 years experience of research chemical manufacturing, Toronto Research Chemicals, Inc has grown to be a leader in manufacturing and distribution of high quality research chemicals globally

WHY TRC?

- 35 Years Expertise in Custom Synthesis
- ISO 9001 Certified labs
- > 150 Ph.D./ MSc. Chemists
- >65,000 Ready to ship High Quality Products
- Full Project Planning Scientific Group
- Highly Rated Chemicals by Researchers
- > 1400 peer review research citations
- > 100 Patent Citations
- Cost Effectiveness with Guaranteed Quality
